

RESULTS 2018

A-LEVEL RESULTS

We are delighted to announce another year of extremely pleasing A Level results. The proportion of A* - B grades increased, with almost half of our examination entries leading to A*, A or B grades.

We are also delighted that the proportion of students achieving AAB in 2 or more facilitating subjects has increased, which means that we are performing better than the national standard for this measure. Indeed, according to the Complete Guide to University, "Facilitating subjects are those A Level subjects which are more frequently required for university entry and so gaining the best possible grades in at least 2 facilitating subjects drastically improves the range of degree courses available to you."

GCSE RESULTS

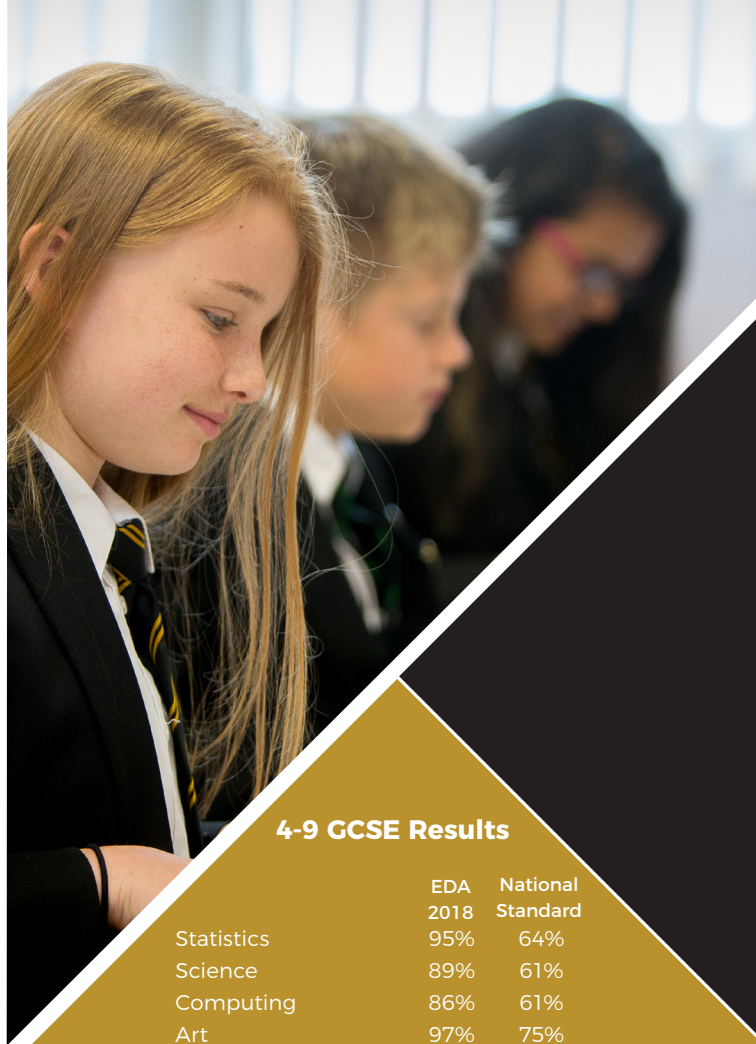

Recently published National Standards indicates that Erasmus Darwin Academy has attained significantly above the 2018 National Standard.

KEY PERFORMANCE INDICATOR COMPARISON

	EDA 2018	National Standard
English and Maths (4-9)	78%	64%
English and Maths (5-9)	55%	43%
